

PROFESSIONAL SUMMARY

Graduating Computer Engineering student at Polytechnic University of the Philippines - Manila with a foundation in **Full-Stack Software Engineering** and an active focus on **GenAI** and **Workflow Automation**. Demonstrated ability in optimizing AI conversational agents and implementing RAG-based pipelines to streamline business operations. Committed to solving high-impact problems through data-driven innovation and robust AI infrastructure.

- TECHNICAL SKILLS
- **Languages:** Java, Python, JavaScript/TypeScript, SQL, HTML/CSS
 - **Backend & Infrastructure:** Spring Boot, Redis, PostgreSQL (Neon), H2, JSON
 - **AI Engineering:** GenAI, RAG, FastAPI, Prompt Engineering, Vector Search, LangChain, MCP, LLM Orchestration
 - **Tools & Cloud:** Git/GitHub, Maven, Docker, AWS, Microsoft Azure DevOps, Render, CI/CD Pipelines
 - **Web & UI/UX:** React.js, Next.js, Figma, Progressive Web Apps (PWA), Wireframing.

EXPERIENCE

SOFI AI Tech Solution Inc.

Junior AI Engineer (Contract)

January 2026 - March 2026

- Optimized and managed stability for 10+ live client chatbots by rapidly diagnosing production-level defects and maintaining AI workflows
- Engineered a RAG pipeline with Python, FAISS vector search, and OpenAI embeddings; Dockerized with Google Cloud Storage.
- Built a FastAPI microservice with RAG endpoints (ingestion, semantic search, grounded answers) for n8n workflows.

Developer Intern

July 2025 - December 2025

- Automated and launched a client-facing AI conversational agent to production on a low-code platform using visual workflow builders and prompt engineering
- Designed intent-routing workflows with automated classification and task delegation to reduce misrouted queries.
- Built REST and Google Apps Script integrations that auto-logged submissions to Google Sheets, eliminating manual data entry.

Dewise Solutions Philippines Inc.

Software Engineer Intern

August 2024 - October 2024

- Completed over 10 Microsoft Learning paths focused on DevOps, Python, Azure services, Cloud, AI, GitHub, and Copilot
- Developed the frontend of a Progressive Web App using Next.js and TypeScript
- Designed UI/UX flows through wireframing, high-fidelity prototyping, user research, and design thinking

LEADERSHIP

Google Developer Groups on Campus PUP

UI/UX Lead

September 2024 - September 2025

- Led a 180+ member team and 12-member support committee, managing stakeholders and end-to-end event planning to execute 5 workshops and study jams, including a 200+ participant inaugural session, while delivering sessions on design fundamentals and Figma.

PUP Manila Microsoft Student Community

Associate Director of the Developer + Operations (DevOps) Division

September 2024 - September 2025

- Conducted study sessions focused on DevOps and key concepts such as CI/CD pipelines, deployment strategies, and the use of various DevOps tools and services within Microsoft Azure

AWS Cloud Club PUP

Cloud Computing and Infrastructure Member

November 2024 - November 2025

- Actively participating in technical sessions focused on AWS cloud fundamentals, core services and best practices

SELECTED PROJECTS

Aura: AI-Powered Financial Intelligence Web App

Personal Project - Developed a full-stack financial intelligence web application using Java 21, Spring Boot, PostgreSQL, Redis, and Gemini API to transform unstructured spending input into structured financial data and personalized insights.

CrowdFlow: Itinerary Planner

Personal Project - Developed a dynamic, AI-powered itinerary planner that generates optimized daily schedules, estimates real-time crowd levels, and automatically reroutes users to similar, low-density alternatives when a venue reaches capacity.

Solar Connect

Software Engineer - Deployed and engineered the full-stack system architecture and developed a web application to support a solar-powered charging station thesis project, including seamless integration with the embedded firmware.

EDUCATION

Polytechnic University of the Philippines - Manila

Bachelor of Science in Computer Engineering

2022 - Present

- President’s Lister with a GWA of 1.3
- DOST-SEI Merit Scholarship Recipient

ADDITIONAL

Certifications: [AWS Certified AI Practitioner](#), [DataCamp Python Developer Associate](#)
